

If you choose to pay monthly you will be entered into a fixed term contract and will be liable to pay your monthly costs until the end of the agreed term. Missing these payments will incur a charge, missing 3 payments will result in your website being taken down.

The website management option comes with no fixed term contract which means you can choose to manage your own website at any time!

WEB DESIGN

So you need a Website...

All my websites are made by via a pre created platform, which means I do not code them, that bit is already done, I just design it to look pretty and make it functional for you and your clients!

What I will do for you:

I will design you a website using the Wix platform. Once ordered, please fill in the form attached with your general theme, colour scheme, titles for pages, text to feature on pages etc. One of the main things when designing a website is high quality photos. If you would like my advice on whether I think your photos are suitable, please just email me before you order so I can check them.

Once I have your design brief I can get working away. Please one to two weeks for initial proofs. You will receive a link to preview the website and check over any copy (wording), pictures, design and functionality. You can have 3 revisions per page, then will incur a charge of £20 per revision there after.

Once the design is approved, I will send a link to transfer the website to yourself, or you can opt for me to manage the website for you (additional fee).

Upon preview, the website will not yet be live until your approval. As Wix is quite a user friendly platform, if you wish, you should be able to make changes to it yourself; update prices, photos etc. However, if you would like me to do this for you in future, there is a charge of £20 per hour. Please see additional fees on the next page.

I will required a **40%** deposit up front before work begins.

Web Design

1 - 3 pages	£250
4 - 7 pages	£300
Unlimited	

Page revisions (per page)

3 revisions	FREE
